

QUINCE, CAMEO

Noted for its double peach-pink flowers and compact shape. It is a dense, broad-rounded, deciduous shrub with often-tangled, spiny-tipped twigs. **It typically grows to 3-4' tall and to 4-5' wide.** Peach-pink double flowers bloom, often in profusion, before the leaves fully unfold in an early spring bloom. Flowers are followed by hard, yellowish-green fruits that may acquire red tinges as they mature in autumn. Quinces are edible, but usually are considered too bitter to be eaten directly from the shrub. No fall color. Full sun to part shade Zone 4-8

QUINCE, ORANGE STORM

Noted for producing an early spring bloom of double orange flowers that resemble camellias. This is a dense, broad-rounded, thornless, deciduous shrub that **typically grows to 3-4' tall and as wide.** Bold orange double flowers bloom, often in profusion, before the leaves fully unfold in an early spring bloom. Plants do not produce fruit. Oval to oblong, glossy dark green leaves. No fall color. Sun to part sun Zone 5-9

QUINCE, PINK STORM

Noted for producing an early spring bloom of double scarlet red flowers that resemble camellias. This is a dense, broad-rounded, thornless, deciduous shrub that **typically grows to 3-4' tall and as wide.** Bold scarlet red double flowers bloom, often in profusion, before the leaves fully unfold in an early spring bloom. Plants do not produce fruit. Oval to oblong, glossy dark green leaves. No fall color. Sun to part sun Zone 5-9

QUINCE, SCARLET STORM

Noted for producing an early spring bloom of double scarlet red flowers that resemble camellias. This is a dense, broad-rounded, thornless, deciduous shrub that **typically grows to 3-4' tall and as wide**. Bold scarlet red double flowers bloom, often in profusion, before the leaves fully unfold in an early spring bloom. Plants do not produce fruit. Oval to oblong, glossy dark green leaves. No fall color. Sun to part sun Zone 5-9

QUINCE, TEXAS SCARLET

It is a dense, broad-rounded, deciduous shrub with often-tangled, occasionally spiny-tipped twigs. **It typically grows to 3-4' tall and to 4-5' wide**. Single watermelon red flowers bloom, often in profusion, before the leaves fully unfold in an early spring bloom. Flowers are followed by hard, yellowish-green fruits that may acquire red tinges as they mature in autumn. Quinces are edible, but usually are considered too bitter to be eaten directly from the shrub. No fall color. Full sun Zone 5-9

RHAMNUS, FINELINE

Fantastic fern-like foliage gives this Buckthorn a unique texture. It has a narrow, upright habit and **grows 5-7 feet tall**. Use it to create narrow hedges or screens or as an accent specimen. Produces very little fruit. Full sun to part shade Zone 2

RHODO. CAPISTRANO

This is a yellow-flowering David Leach hybrid. It is a dense, mound-forming, evergreen shrub which typically grows to a mature **height of 3-5' tall and 5-6' wide**. Large tresses of lemon yellow flowers appear in spring (mid-season). Dark green, elliptic to oblong leaves are evergreen. Shade to part shade Zone 5-8

RHODO. CAT ALBUM

Dense-growing evergreen shrub valued for its large trusses of showy flowers. Prefers cooler regions but some protection from winter wind is helpful. Very effective as an accent. Follow a regular watering schedule during the first growing season to establish a deep, extensive root system. Provide well drained soil, rich in organic matter. Feed with an acid fertilizer after bloom. Keep roots cool with a thick layer of mulch. **Grows to the height of 6 feet tall and wide.** Part shade Zone 5

RHODO. NOVA ZEMBLA

Full upright grower with glossy dark green foliage. **Moderate growing to 5 ft. tall and wide.** Appears to be the most popular of all reds. Quite cold tolerant and heat resistant. Produces a beautiful array of red-lavender blooms. Great in mid-west or southern landscapes. Part sun Zone 5

RHODO. OLGA

Olga is blanketed in stunning clusters of lightly-scented hot pink trumpet-shaped flowers at the ends of the branches in mid spring. One of the hardier varieties, this broadleaf evergreen shrub has showy orange-pink flowers in spring on an upright habit, interesting fall coloration; absolutely must have well-drained, highly acidic and organic soil, use plenty of peat moss when planting. **Grows to 6' tall with a 5 foot spread.** Part sun to shade Zone 4

RHODO. PJM COMPACT

These hybrids are compact, rounded, small-leaved, evergreen shrubs that generally **grow up to 4' tall and wide** and are noted for having exceptional winter hardiness. Lavender, rose or pink flowers bloom in clusters in April. Elliptic, hairless, leathery, dark green leaves. Foliage acquires purple tones in winter. Part sun to shade Zone 4-8

RHODO. ROSEUM ELEGANS

This selection is hardy to 25 degrees below zero with excellent heat tolerance. Produces a beautiful array of Rosy-lilac flowers in May against dense, smooth foliage. Acidic-soil loving broad-leaf evergreens. Plant in a location protected from strong winter winds. Roseum Elegans loves to be planted with pre-moistened peat moss, and well-drained soil. **The height on this is 6' tall and wide.** Sun to part shade Zone 5-8

ROSE, ABRAHAM DARBY TEA Old fashioned, large 5" cupped, very fragrant blooms of rich shades of apricot at times touched with gold. 100 petals. The flowers are produced in good numbers throughout the season on a great plant with disease resistance. May also be grown as a climbing rose. Glossy green foliage. Outstanding. **Can grow up to 6' tall and wide.** Continually blooming. Full sun Zone 6-9

ROSE, CHRYSLER IMPERIAL TEA This timeless classic is a perfect example of what a hybrid tea should be high centered, velvety, strongly scented and with a great repeat. The large, shapely, dark red blooms are held on long stems clothed with dark green leaves. While happiest in hot temperatures, it doesn't disappoint wherever it calls home. 45 to 50 petals. **4-6 feet tall.** Full sun Zone 6

ROSE, CROCUS ROSE TEA This is a very robust and free flowering rose, bearing large, rosette-shaped flowers that are cupped at first; the petals later re-flexing. The color is soft apricot, paling to cream on the outer petals, the whole flower paling to cream with age. The blooms are produced very freely, in large clusters elegantly poised on the end of slightly arching stems. They have a delightful Tea Rose fragrance. 3 1/2" bloom with 41 petals. **Grows 4' tall and 3' wide.** Full sun Zone 5

ROSE, FIGHT. TEMERAIRE TEA The fully open flowers are very large, 4-5" across, have only 10 petals. By the time the petals are ready to drop, the color has faded to a soft yellow-apricot. This rose is particularly healthy and vigorous and will develop into a most attractive rounded shrub. The fragrance is medium to strong, very fruity with a strong element of lemon zest. **4-5 feet tall.** Full sun Zone 6

ROSE, JOHN F. KENNEDY TEA Long, ovoid, green buds open to display a white/white blend 5 1/2" rose with 48 petals has a fragrance of licorice. The upright bushy repeat blooming plant has an abundance of dark green leathery foliage. **Grows up to 5' tall and 3' wide.** Full sun Zone 5-10

ROSE, LICHFIELD ANGEL TEA The flowers of this rose commence as charming peachy pink cups, gradually opening to form neatly cupped rosettes. Each bloom has a perfect ring of creamy-apricot waxy petals enclosing numerous smaller petals. Eventually the petals turn back to form a large, domed, creamy-white flower. The overall effect in the mass in sunshine is almost pure white. Forms a rounded shrub which, with its blooms nodding attractively on the branch. **4 feet tall and 3 feet wide.** Full sun Zone 5

ROSE, MUNSTEAD WOOD TEA The flowers of this variety are in fact light crimson in the bud but, as the center gradually reveals itself, it becomes a very deep velvety crimson while the outer petals remain rather lighter in color. They are of large size and cupped at first, becoming shallowly cupped with time. The growth is quite bushy, forming a broad shrub with good disease-resistance. The leaves are mid-green; the younger leaves being red-bronze to form a nice contrast. There is a strong Old Rose fragrance with a fruity note. **3 feet tall and 2.5 feet wide.** Full sun Zone 5

ROSE, PEACE TEA Beautiful, large, heavy cupped to high centered 6" blooms (petals 45) of golden primrose-yellow with soft rose-pink shadings on what should be a strong growing continual blooming bush with large, rich-green, leathery foliage. Our plants of 'Peace' will be more winter hardy being own-root and virus free. Makes a good cut flower. **Grows to 4' tall and 3' wide.** Full sun Zone 5

ROSE, TEASING GEORGIA TEA A superb deep yellow cup-flowered rose, whose outer petals turn back and are a paler yellow. This is equally good as a climber or as a shrub and should grow to **6-8 ft.** Medium to strong fragrance. Full sun Zone 5

ROSE, CAREFREE CAROLINE

Lots of coral-orange double flowers. Dwarf plants, with very attractive foliage. Perfect for small gardens, hillsides, and perennial beds. Continuous blooms from spring to frost. **Grows 2 feet tall and 3 feet wide.** Full sun Zone 5

ROSE, CAREFREE DIANA

Beautiful single yellow-centered, pure white flowers. Dwarf plants, with very attractive foliage. Perfect for small gardens, hillsides, and perennial beds. **2 feet tall and 3 feet wide.** Full sun Zone 5

ROSE, DOUBLE KNOCKOUT

Knock Out is a compact, tidy shrub rose and resistant to black-spot. Blooms are fire engine red in cool weather and a cherry red in the summer months. The foliage is a dark purplish green and turns to burgundy in the fall. Tough foliage and blooms. Knock Out is drought tolerant and If left un-pruned, and they can easily grow to be more than **3-4' wide x 3-4' tall.** Full sun Zone 5

ROSE, DRIFT APRICOT

A true groundcover rose with bright double apricot flower blooms. They are extremely prolific bloomers of soft peach colored flowers from early spring right on thru till hard frost. Can **grow to 2 ft tall and 3 ft. wide.** Full sun Zone 4

ROSE, DRIFT CORAL

Repeat-bloomers that are tough, disease resistant, winter hardy and virtually maintenance-free. Drift Roses are a cross between full-size groundcover roses and miniature roses. From the former they kept toughness, disease resistance and winter hardiness. Continuously blooming from spring to frost. **1.5 feet tall and 2.5 feet wide.** Full sun Zone 4-11

ROSE, DRIFT PEACH

Repeat-bloomers that are tough, disease resistant, winter hardy and virtually maintenance-free. Drift Roses are a cross between full-size groundcover roses and miniature roses. From the former they kept toughness, disease resistance and winter hardiness. Continuously blooming from spring to frost. **1.5 feet tall and 2.5 feet wide.** Full sun Zone 4-11

ROSE, DRIFT PINK

Repeat-bloomers that are tough, disease resistant, winter hardy and virtually maintenance-free. Drift Roses are a cross between full-size groundcover roses and miniature roses. From the former they kept toughness, disease resistance and winter hardiness.

Continuously blooming from spring to frost. **1.5 feet tall and 2.5 feet wide.** Full sun Zone 4-11

ROSE, DRIFT POPCORN

Repeat-bloomers that are tough, disease resistant, winter hardy and virtually maintenance-free. Drift Roses are a cross between full-size groundcover roses and miniature roses. From the former they kept toughness, disease resistance and winter hardiness.

Continuously blooming from spring to frost. **1.5 feet tall and 2.5 feet wide.** Full sun Zone 4-11

ROSE, DRIFT RED

Repeat-bloomers that are tough, disease resistant, winter hardy and virtually maintenance-free. Drift Roses are a cross between full-size groundcover roses and miniature roses. From the former they kept toughness, disease resistance and winter hardiness.

Continuously blooming from spring to frost. **1.5 feet tall and 2.5 feet wide.** Full sun Zone 4-11

ROSE, DRIFT SWEET

Repeat-bloomers that are tough, disease resistant, winter hardy and virtually maintenance-free. Drift Roses are a cross between full-size groundcover roses and miniature roses. From the former they kept toughness, disease resistance and winter hardiness.

Continuously blooming from spring to frost. **1.5 feet tall and 2.5 feet wide.** Full sun Zone 4-11

ROSE, FJ GOOTENDORST

Displays clusters of blooms with frilled edges and a spicy fragrance. These cute flowers resemble fringed carnations. It has crinkly, bright green foliage on a bushy, vigorous, upright shrub and blooms from June until frost. **Grows 3-4 feet tall.** Full sun Zone 4-8

ROSE, FRAU DAGMAR

The fragrant, silvery-pink blooms are followed by large brick red hips in the fall. The foliage is bright green, crinkled and disease resistant turning reddish-purple then gold in autumn. The yellow/gold fall color is certainly contrasted with red hips. Very hardy and **grows 3-4 feet tall.**

Full sun Zone 4-8

ROSE, HOME RUN

Home Run is a true-red rose with continuous blooms and top level disease resistance to both black spot and powdery mildew. Foliage has a naturally rounded shape and dense dark green color. It is heat tolerant, cold hardy and requires no deadheading. **Grows 4-5 feet tall.** Full sun Zone 4-9

ROSE, KNOCKOUT RED

Knock Out is a compact, tidy shrub rose and resistant to black-spot. Blooms are fire engine red in cool weather and a cherry red in the summer months. The foliage is a dark purplish green and turns to burgundy in the fall. Tough foliage and blooms. Knock Out is drought tolerant and If left un-pruned, and they can easily grow to be more than **3-4' wide x 3-4' tall.** Petal count 5-11. Full sun Zone 5-9

ROSE, KNOCKOUT SUNNY

Fragrant, bright yellow flowers mature to a cream color and are produced continuously and profusely. Extraordinary resistance to common rust, mildew and black spot foliage diseases. Makes a superb low hedge. Deciduous. **Grows 3-4 feet tall.** Full sun Zone 4-9

ROSE, WHITEOUT

Pure white blooms that pop against dark foliage. This compact landscape shrub produces 3-3½" flowers with yellow centers and a lovely citrus fragrance. Dark green and burgundy foliage. Drought-tolerant. **Reaches 3-4' tall and wide.** Full sun Zone 5-9

SMOKEBUSH, ROYAL PURPLE

Forms an upright, low branched, spreading shrub. It makes a wonderful accent as a shrub border, can be planted as a specimen, or as a patio tree. Royal Purple Smokebush displays beautiful, velvety, dark purple foliage throughout the growing season, with panicles of smoky-purple to beige flowers blooming in mid-summer. This gives the effect of a cloud of smoke. **Grows up to 8-10 feet tall.** Full sun to part shade Zone 5-8

SMOKE TREE, VELVET CLOAK

A rare and excellent selection with smoky purple foliage that is almost black. Rosy plumes are produced in summer and fade to a smoky gray. Shrub matures at **15 feet tall and 8 feet wide.** Great for a color accent plant. Full sun Zone 4-8

SNOWBERRY, CANDY

This is a dwarf variety of the classic Snowberry bush. Vibrant green foliage on arching branches that explodes in elegant pink flowers throughout summer. As autumn approaches your blooms will merge into plump, pink berries. Winter brings a drop of the foliage, but the berries will remain to add decorative interest to your yard. **Grows 3-4 feet tall and wide.** Full to part sun Zone 4-8

SNOWBERRY, SWEET

A dwarf variety of an old favorite, this smaller version of the traditional Snowberry is a must have for any yard. Resplendent in pink summer flowers and fall berries, your Sweet Sensation features a deeper pink shade than some other varieties. The silver-green foliage sets off the gracefully arching branches, and the dramatic pink blossoms are an addition to the vibrant shades of summer. Even when the flowers drop, the decorative pink berries will remain to liven up the dull shades of fall and winter. This will reach **a height of 3-4 feet tall and wide.** Full sun Zone 4-8

SPIREA, ASH LEAF

Dwarf variety with appealing orange, yellow, and green foliage in spring and fall. Improved form of Sorbaria with better branching and a denser, compact habit. Panicles of white flowers in summer. **Grows 4-6 feet tall and wide.** Full sun Zone 4

SPIREA, DOUBLEPLAY ART.

Double Play Spireas have both colorful flowers and colorful foliage. Rich purple red new growth in spring complements deep pink summer flowers. Maintains its compact, mounded shape with very little pruning, and has more vivid color than other Spirea varieties. **Grows to 3 ft. tall and wide** Full sun Zone 4

SPIREA, DP BING BANG

With its dazzling display of colorful foliage and flowers, this fantastic selection provides beauty in the landscape from spring through fall! Emerging spring foliage glows orange, transitions to deep yellow all summer long, returning to rich golden orange in autumn. Massive pink flowers are the largest we've ever seen on a Spirea. **Grows to 3 ft. tall and wide** Full sun Zone 4

SPIREA, GOLDFLAME

Dense, upright mounded shrub features attractive bronze-tinged new growth in spring, maturing to soft yellow-green. Fall foliage color is brilliant coppery-orange. Provides wonderful contrast in shrub borders. Good heat tolerance. Deciduous. **Grows 3- 4 ft. tall and wide.** Full sun Zone 4

SPIREA, GOLDMOUND

A bushy plant with bright yellow foliage all summer. Clusters of light pink flowers in early summer. Outstanding accent plant for color or contrast in foundation planting. Reaches a **height of 3 feet with a spread of 3 to 4 feet**. Full to part sun Zone 4

SPIREA, LITTLE PRINCESS

Dwarf mounding shrub **growing to 2 feet tall and 3 feet wide**. Dainty clusters of pink blossoms in summer create quite a show against the mint green foliage. Excellent groundcover or dwarf specimen. A nice plant for small areas. Full sun Zone 4

SPIREA, MAGIC CARPET

This great introduction from England has smaller, more uniform compact growth habit **maturing at 18 to 24 inches tall and 24 inches wide**. The foliage is brighter, the flowers are darker pink and it is more resistant to mildews and leaf spot. Full to part sun Zone 4

SPIREA, RENAISSANCE

An upright, arching shrub that becomes a fountain of white flowers in spring. Dark blue-green disease-resistant leaves turn orangish-red in fall. **Grows 5 to 7 feet high by 6 to 8 feet wide.** Full to part sun Zone 3

SPIREA, SUNDROP

Beautiful sprays of pink flowers on a compact plant with golden foliage. A natural dwarf with a rounded habit, requires little or no pruning. Foliage holds its color even in the summer heat. Hardier than most golden spiraea. **Grows 12-15 inches high and 2-3 feet wide.** Full sun to part shade Zone 4

SPIREA, TOR

The neat mound of rich green foliage provides the ideal backdrop for tight clusters of brilliant white flowers. Foliage becomes gold, red and purple in autumn. Fantastic planted in mass, lining a walkway or as a foundation plant. Deciduous. Compact, **rounded shrub 3 to 4 ft. tall and wide.** Full sun Zone 4

SPRUCE, DWARF ALBERTA

A very slow growing, conical form, Spruce that matures at a **height of 5 to 7 feet and a width of 5 feet**. New foliage is bright green, changing slowly to bluish-green. Excellent accent or novelty evergreen plant. Great in containers. Full sun Zone 4

SPRUCE, GLOBE BLUE

A true dwarf spruce with a low graft, provides an eye-catching specimen in the landscape. This compact spruce has bluish-white needles and a globe-shape habit **maturing at 3 foot high with a similar width**. Full to part sun Zone 2

SPRUCE, GLOBE BLUE STD.

Globe Blue Spruce (tree form) **will grow to be about 6 feet tall at maturity, with a spread of 5 feet**. It tends to be leggy, with a typical clearance of 3 feet from the ground, and should be under planted with lower-growing perennials. It grows at a slow rate, and under ideal conditions can be expected to live for 60 years or more. Full to part sun Zone 2

ST. JOHNS WORT, AMES

An evergreen shrub or subshrub with upright branching that typically **grows in a dense mound to 2-3' tall**. It features narrow, linear-oblong, bluish-green leaves in pairs and 5-petaled, golden yellow flowers in cymes in mid to late summer. Full sun to part shade Zone 4-7

ST. JOHNS WORT, BL. VELVET

A sun-loving, mounding, and densely branched shrub with lustrous blue-green foliage. Bright, clear yellow flowers blanket this disease resistant plant in late spring. **Will grow 3- 4 feet tall with an equal spread**. Full sun Zone 4

ST. JOHNS WORT, SUNBURST

Sunburst is a small, dense, upright, mounded deciduous shrub with attractive blue-green foliage. It has large, golden-yellow flowers in mid-summer. Foliage may be semi-evergreen to evergreen in the southern part of its growing range. **Mature size is 3 to 4 feet tall and wide**. Full sun to part shade Zone 5

ST. JOHNS WORT, SUNNY BLVD These flowers appear on a densely branched hybrid shrub with willow-like leaves. This shrub blooms from July until September with small, but numerous, rich yellow flowers. Being a versatile shrub, it is widely adaptable but thrives best in moist, well-drained soil and is tolerant of some drought but it will not tolerate any standing water. **Grows 2-3 feet tall and wide.** Full sun to part shade Zone 4-8

SUMAC, GRO-LOW FRAG. Sparkling foliage and a low, wide-spreading habit make this fragrant sumac selection perfect for soil erosion control. **The plant reaches 2 feet tall and spreads rapidly up to 8 feet.** It has small, yellow, aromatic flowers in the spring, followed by red hairy fruit. Fall foliage is orange to scarlet. Full sun to part shade Zone 4

SUMAC, PRAIRIE FLAME Prairie Flame develops into a compact, multi-stemmed shrub that is drought tolerant, and it does especially well in dry and rocky soil, and grows best in full sun. This Shining Sumac has outstanding showy red orange fall color, is a non-fruiting male clone, and is drought tolerant. **Grows 5-6 feet tall and 4-6 feet wide.** Full sun to part shade Zone 4-8

SUMAC, SMOOTH

A thicket-forming shrub or small tree with a spreading crown. Leaves alternate, feather-compound, central leaf-stem smooth, leaflets with tip pointed, base rounded, upper surface dark green, shiny; lower surface lighter to conspicuously white, smooth. Leaves turn red in fall. **Can grow up to 20 feet tall.** Full sun to part shade Zone 2-9

SUMAC, STAGHORN

This small tree sometimes grows as a tall shrub. Its irregular crown is made up of a few stout, spreading branches. It often sprouts from roots and forms thickets. It grows in well drained to dry soils in open areas and old fields, at forest edges, and along roadways. **Grows up to 25 feet tall.** Full sun to part shade Zone 3-9

SUMAC, TIGER EYES

The new growth is a vivid chartreuse green, changing to a bright yellow summer color. The leaf stems are purplish-pink and form a dramatic contrast with the lemon-lime foliage. A luminous combination of yellow, orange and intense scarlet is displayed in the fall. **Grows 3-6' tall and wide.** Full sun to part shade Zone 4

SWEETSHRUB, HART. WINE

Hartlage Wine is a deciduous shrub. A splendid new shrub notable for the large and showy wine-red flowers about 2.5 inches in diameter which appear over an extended period in spring and summer. Plant in fertile, well-drained soil in semi-shade. **Grows to the height of 10 feet tall and the spread of 8 feet wide.** Sun to part shade Zone 6-9

SWEETSHRUB, VENUS

Large, magnolia-like white flowers with yellow and purple central markings are delightfully fragrant in early summer and appear intermittently thru the season. Glossy green foliage matures to a golden yellow in autumn. **Reaches 5 feet tall and 5 feet wide.** Full sun to part shade Zone 5-8

TAMARISK, SUMMER GLOW

Rosy flower spikes all summer. Interesting foliage effect of feathery silver blue. Gets to the **height of 10 feet tall with an 8 foot spread.** Full sun Zone 2-7

TRUMPET VINE, SUM. JAZZ

The Summer Jazz series are compact and tame. Summer Jazz™ Gold has showy yellow blooms late summer to early fall on a moderate climber **reaching 3 feet tall and wide**. Full sun Zone 5

TRUMPET VINE, IND. SUM.

Produces clusters of orange-red trumpet-shaped flowers to 3" long from late spring into early summer. Each flower is yellowish orange with a reddish throat. Reaches up to 15' tall with a 5' spread. Full sun to part shade Zone 4

TRUMP. VINE, MADAM GAL.

It produces trumpet-shaped, cantaloupe-orange to salmon-red flowers which appear in loose clusters throughout the summer. It is a woody, clinging vine which attaches itself to structures and climbs by aerial rootlets. It rapidly **grows 15-25' high with a 12' spread**. Full sun to part shade Zone 4

WEIGELA, BURGANDY FIRE

Mounded and upright: Fuchsia colored flowers: Green foliage turns bronze to red with cool temperatures. **Grows to the height of 4 feet tall and 4 feet wide.** Full sun Zone 5

WEIGELA, WINE AND ROSES

This weigela cultivar is a densely-rounded deciduous shrub which typically grows **4-5' tall** with a slightly larger spread. It is primarily grown for its profuse reddish-pink spring flowers and its purple foliage. Elliptic to obovate, glossy, burgundy-purple leaves turn very dark purple in autumn. Full sun Zone 4

WEIGELA, WINGS OF FIRE

Large, broad leaves are bronze-colored from early summer to fall, intensified by the sun. Stems are red with pink flowers in early summer. Has a compact habit **growing 4 to 5 feet tall and wide.** Resistant to wind and rain damage. Full sun Zone 4

WILLOW, FLAME

This is an interesting plant for its dense branching habit, winter bark color of orange to red and unusual curling of the branch tips. Excellent as a tall windbreak shrub or background plant, the foliage hangs on long after the leaves of other plants have fallen. **Grows 20 feet tall and 15-20 feet wide.** Full to part sun Zone 3-6

WISTERIA, AMETHYST

This spectacular twining vine grows about a third the rate of Asian wisteria, making it better suited for smaller spaces. **Fast grower with stems 8 to 10 ft. long.** Slightly fragrant purple racemes bloom at an early age. Great in containers for porch or patio, as an espalier onto a trellis, or trained up an arbor. Deciduous. Full sun Zone 5

WISTERIA, AUNT DEE

A proven hardy selection graced with 8 to 12 in. long clusters of lilac blue flowers. Superb for covering a trellis, pillar, fence, rail or arbor. **Twining stems 15 to 25 ft. long.** Tolerates wet soils better and more restrained than Asian Wisterias. Native to the southeast U.S. Deciduous. Full sun Zone 4

WISTERIA, BLUE MOON

Dependably blooms up to three times in a growing season once established, producing beautiful, foot-long racemes of fragrant, pea-like lavender-blue flowers. **Twining stems 15 to 25 ft. long.** Cloaks shade arbors and structures. Ideal for arching over gateways and entries or along the top of a wall. Deciduous. Full sun Zone 4

WISTERIA, COOKES PURP.

Cooke's Purple' is a deciduous woody flowering vine that climbs through a twining method and can reach **up to 30'**. Chinese Wisteria will flower in the spring before the foliage emerges. The purple flowers are held in grape-like clusters and are extremely fragrant. Full sun Zone 5

WISTERIA, PROLIFICA

Prolific is noted for its prolific bloom of lilac blue flowers in spring sometimes extending into early summer. It typically flowers at an earlier age and with greater abundance than species plants. In contrast to the very similar Japanese wisteria, Chinese wisteria differs by counterclockwise twining. **Twining to 25' long with an 8' spread.** Full sun Zone 4

WITCHHAZEL, ANGELLY

A vigorous, upright spreading shrub. Come February branches are covered with small clusters of pale yellow, long-petaled blooms that are slightly fragrant. Good yellow fall color. **Grows to 13' tall with a 13' spread.** Full sun Zone 5

WITCHHAZEL, ARNOLDS PROM Arnold Promise is an upright, vase-shaped cultivar with ascending branches and a spreading habit. **It will typically grow 12-15' tall** and is noted for its sweetly fragrant flowers and later bloom than most of the other cultivars. Clusters of bright yellow flowers, crinkled petals and a reddish-green cup, bloom along the stems in February to March. Yellow-orange to yellow fall color can be quite attractive. Full sun to part shade Zone 5-8

WITCHHAZEL, DIANE

Diane is a red-flowered form with spreading branches. It typically grows to **8-12' tall and to 10-15' wide** over 10 years. It is noted for its winter-blooming, mildly fragrant, and red to copper-red flowers. Broad-oval green leaves turn attractive shades of yellow, orange and red in fall. Full sun to part shade Zone 5

WITCHHAZEL, JELENA

Jelena is an upright cultivar with ascending branches and a spreading habit. It will typically **grow slowly to 8-12' tall**, and is noted for its winter-blooming, sweetly fragrant, copper flowers, each having four narrow, ribbon-like, crinkly petals. Axillary clusters of these flowers bloom along the stems in February to March. Broad-oval, green leaves. Orange-red fall color is usually quite attractive. Full to part sun Zone 5-8

WITCHHAZEL, SUNBURST

Sunburst is an upright, vase-shaped cultivar with ascending branches and a spreading habit. It **typically grows to 12' tall and to 8' wide**. Clusters of lemon-yellow, spider-like flowers with narrow petals to 1" in late January to February. Broad-oval, bright green leaves. Yellow-orange to yellow fall color can be quite attractive. Full sun to part shade Zone 5-8

WITCHHAZEL, VERNAL

Vernal Witch Hazel is a winter-blooming, ornamental shrub. It has an extremely early (January-March), and lengthy bloom period. New growth brings additional color as leaves emerge a glorious bronze-red. Vernal Witch Hazel is a deciduous shrub with a rounded habit. It typically **grows 6-10' tall with a somewhat larger spread**. Full sun to full shade Zone 5-8

YEW, CAPITATA

A wonderful Yew selection with a natural compact, dense, pyramidal growth habit. In its native habitat, it will **grow to as much as 30-50' tall**. It features linear, spiny-tipped, dark green needles. Leaves are often tinged yellow beneath. Foliage may turn reddish-brown or yellow in winter. Full sun to part shade Zone 4-7

YEW, COLUMNAR

An upright, almost columnar growing Yew that is extremely hardy in the north. Deep green needles densely cover the plant which produces bright red berries in the fall. This slow grower **reaches 10 to 12 feet tall by 3 to 4 feet wide**. Part sun Zone 4

YEW, DENSI

The most versatile and popular Yew. It has a low-growing, wide-spreading habit with a very dense center and dark green needles. Excellent for foundation plantings and as a specimen plant. **Reaches 3 to 5 feet tall and 6 to 8 feet wide**. Full sun to full shade Zone 4
